

BABEEZ POSTPARTUM DETAIL OF SERVICES AND FEES

To learn more about in-home day and overnight support visit [HERE](#)

To arrange your support, start by filling out an intake form through the link at the bottom of this document so that our coordinator may begin the process.

Please note that postpartum services are HST exempt. We do provide receipts which can be used for insurance purposes or to claim at the end of the year, as directed by your accountant.

Some insurance companies do offer coverage for "Postpartum Home Care Support", "Personal Support Worker" and/or "Registered Nurse Home Care". It's important that you contact your insurance company to inquire about coverage under these titles. You will also need to ask about any stipulations required such as a doctor's note. If an agency letter is required, we can provide one for you.

The support offered by our Babeez Postpartum Professionals will vary depending on the needs of your family. Some families require educational guidance and support while some families need the hands-on assistance as well as time for resting. Whatever your families needs are, we will be there for you. While support is intended as a short term role to help parents transition in those first few months with their new baby(s) some families may choose to have our team remain with them for a longer time.

Please review the various types of professionals we offer, their fees and always feel free to contact us if you have any questions.
